Professional Summary

Frontend Developer with **1.8+ years of experience** designing and developing responsive, scalable and high-performance web applications using **HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap**. Experienced in developing reusable UI components, REST API integration, responsive layouts, Figma-to-code implementation, CRUD applications, authentication workflows, performance optimization, accessibility and SEO best practices. Passionate about building intuitive user experiences and writing clean, maintainable code.

Core Competencies

- Frontend Development (React.js, Next.js)
- Responsive Web Design & Mobile-First UI
- Component-Based Architecture
- Performance Optimization
- Cross-Browser Compatibility
- Git & GitHub (Branching, PRs)
- Problem Solving & Debugging
- REST API Integration
- State Management
- Accessibility (WCAG Guidelines)
- SEO Fundamentals
- Agile Development
- Figma to Code Conversion

Technical Skills

Languages

HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries

React.js, Next.js, Tailwind CSS, Bootstrap, GSAP

Developer Tools

Git, GitHub, VS Code, Chrome DevTools, Figma, GoDaddy, Vercel, cPanel

Professional Experience

Web Developer

Sep 2024 – Present

Prisma.ai

Mumbai

- Developed and maintained **15+ responsive web pages** using Next.js, React.js, JavaScript, Tailwind CSS, and Bootstrap.
- Built the complete Prisma.ai corporate website from Figma designs, improving development efficiency and ensuring 100% design consistency across production pages.
- Created **10+ reusable UI components** improving maintainability, development speed, and design consistency.
- Built secure identity verification workflows for the Veri5 platform including Aadhaar, PAN, OTP, CAPTCHA, Face Verification, Gesture Verification, and Driving License verification.
- Developed **12+ dashboard modules** for Grysec that include analytics, charts, and monitoring interfaces.
- Integrated REST APIs for authentication, dynamic content rendering and backend communication.
- Optimized application performance, responsiveness, cross-browser compatibility, and accessibility across desktop, tablet, and mobile devices, improving overall user experience.
- Reduced frontend development time by 30% through component-based architecture, improving code maintainability, consistency, and development efficiency.

- Collaborated with designers and backend developers in a 3-member Agile team to deliver production-ready applications.
- Improved application performance by optimizing **Lighthouse scores**, implementing lazy loading, image optimization, and code splitting techniques.
- Used **Git and GitHub** for version control including branching, pull requests, and collaborative code reviews in Agile workflow.
- Received appreciation from management for the timely delivery of the project and the high-quality implementation of the frontend.

Featured Projects

HireBlog – Full Stack Blog & Job Portal

Next.js / MongoDB Atlas / Tailwind CSS / Node.js

- Developed a full-stack blogging and job portal supporting secure authentication, CRUD operations, responsive UI, and scalable content management.
- Implemented complete CRUD functionality for Blogs and Careers modules.
- Integrated MongoDB Atlas for data storage and REST APIs for seamless frontend-backend communication.
- Designed responsive and SEO-friendly pages with reusable React components.
- Optimized application performance using server-side rendering and efficient component architecture.

Hotel Room Booking Application

Next.js / MongoDB Atlas / Tailwind CSS

- Built a responsive hotel booking platform with authentication and role-based admin access.
- Developed complete CRUD functionality for room management, bookings, and customer records.
- Designed reusable UI components to improve maintainability and scalability.
- Created mobile-first responsive layouts ensuring compatibility across all devices.

Education

Bachelor of Engineering (Electronics and Telecommunication Engineering) St. Francis Institute of Technology, Mumbai <i>CGPA: 8.0/10</i>	2020 – 2024
Higher Secondary (12th) B.S.G.D Junior College <i>Percentage: 62%</i>	2019 – 2020
Secondary School (10th) K.G.S.S Sarvodaya School <i>Percentage: 83%</i>	2017 – 2018

Certifications

- **Developing for Web Performance**
Focused on Core Web Vitals, frontend performance optimization, page speed improvements, and modern web performance best practices.
- **Git Essential Training**
Covered Git fundamentals including version control, branching, merging, collaboration workflows, and real-world development practices.
- **HTML, CSS, and JavaScript for Web Developers**
Strengthened core frontend development skills including semantic HTML, responsive CSS, and modern JavaScript concepts for real-world web applications.
